

## **Project report format**

### **1.Introduction:**

Overview:

#### **PROVECT DESCRIPTION:**

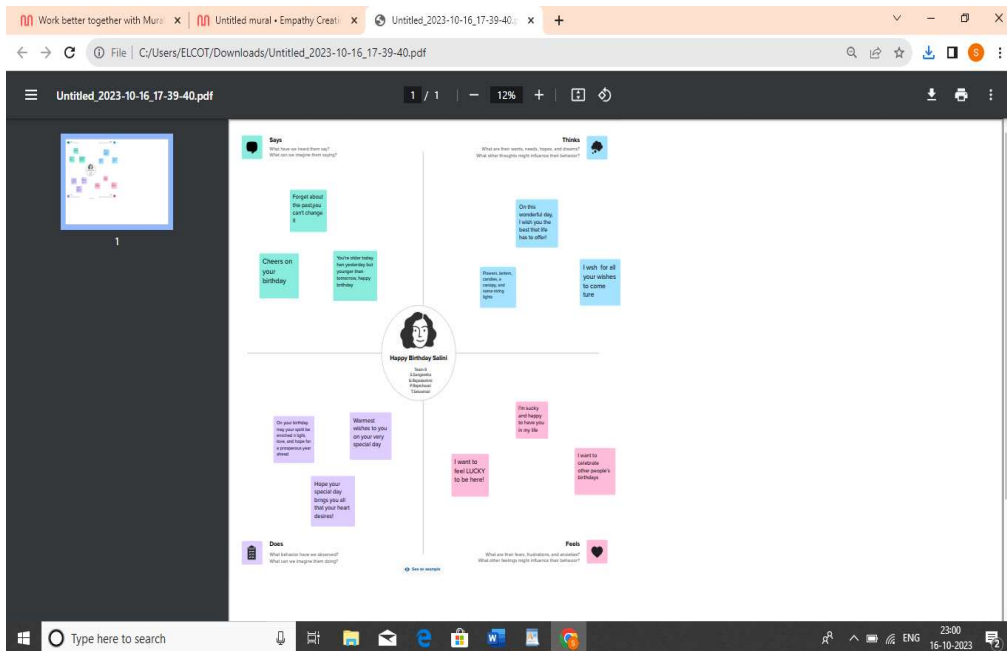

**TO** achieve the best virtual background effect, zoom recommends using a high contrast solid color backdrop preferably a green amazon has a good selection whatever you use go for a matt non reflective background keep your background surface close to you.

#### **Purpose:**

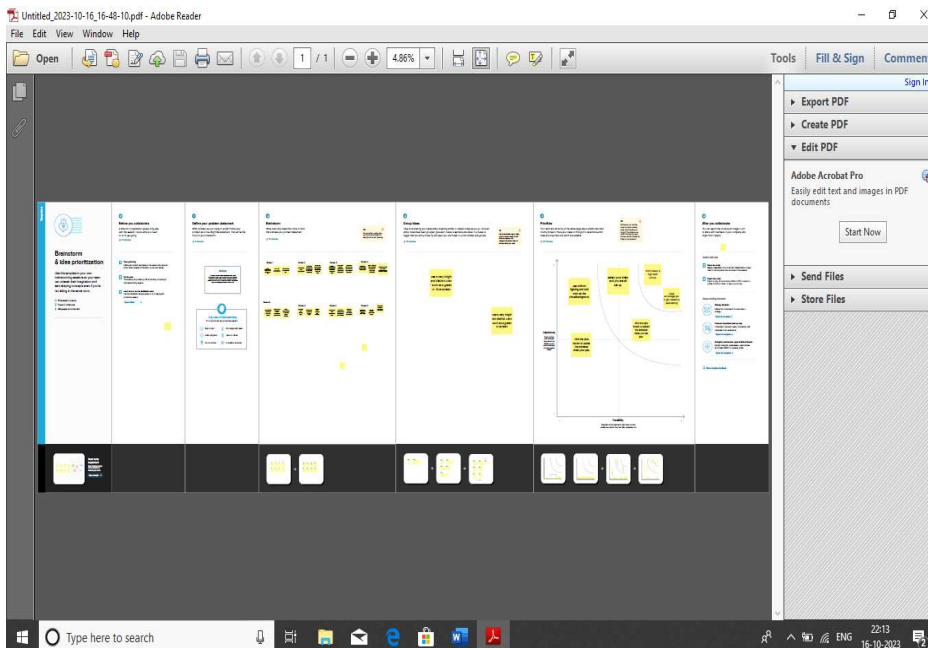

A green screen will give you the best virtual background effect while using the meeting fewer system resources during the meeting you don't have an actual green screen you can use a solid colored wall or curtain but bright distinct color like green or blue works best.

#### **2.PROBLEM DEFINITION & DESIGN THINKING;**

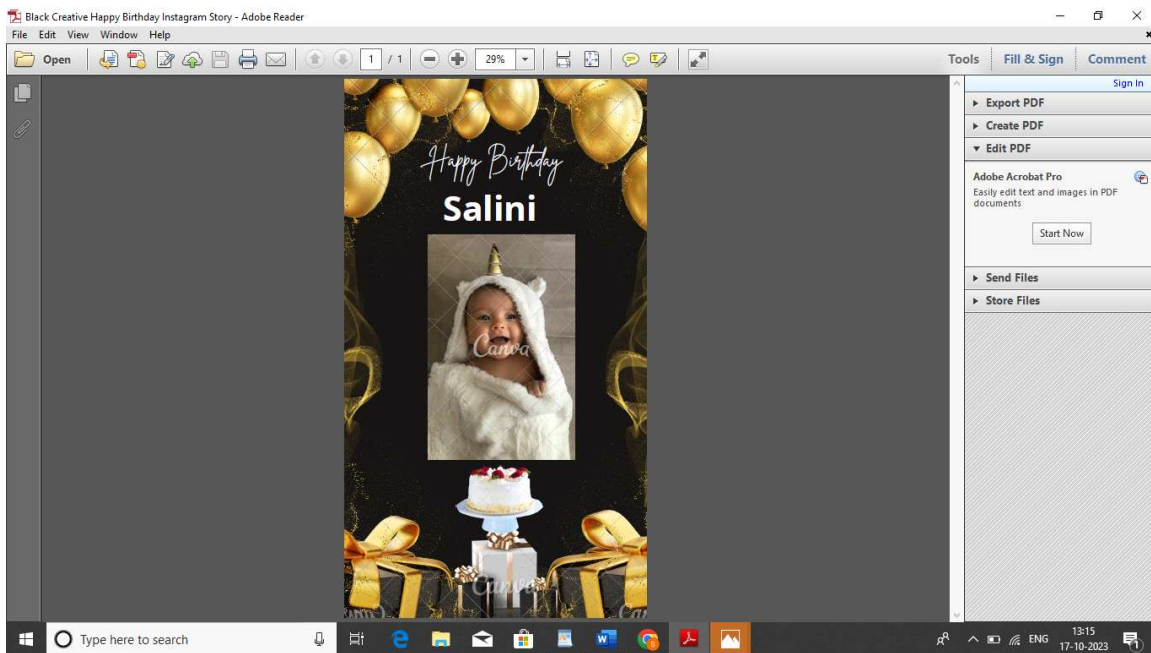

##### **2.1.EMPATHY MAP**

## 2.2.Ideation & Braionstorming

## 3. Result

#### 4.Advantages@Disadvantages

##### Advantages:

- 1.Conceal your personal/office space...
- 2.Build Brand Recongnition and trust...
- 3.Create a unique visual presence...

##### Disadvantages:

Since the beginning of the pandemic, zoom mettings have skyrocketed. Just to give you an idea, at the end of 2019,the maximum number of zoom participants in a day was 10 million.By march of 2020,that number ballooned to 20 million.

## **5.Application:**

The virtual background feature allows you to display an image or video as your background during a zoom meeting.

## **6.Conculation:**

Video conferencing platform zoom is one of the more popular online 'offices' for remote workers-a cohort that has rapidly expanded in recent weeks.By way of zoom millions upon millions of us are conducting our professional dealings from our personal spaces.
